

Subject: Application for Web Developer Position

Dear Hiring Manager,

I am writing to apply for the Web Developer position at your organization. I have hands-on experience in web technologies including HTML, CSS, JavaScript, and React for building responsive and user-friendly web interfaces.

I have worked on frontend projects where I designed web pages, implemented layouts, and handled user interactions using React. I am familiar with React fundamentals such as component-based architecture, props, state, and basic hooks like useState, and I use React to create reusable and maintainable UI components.

I focus on writing clean frontend code and creating intuitive user experiences. I am eager to work as a Web Developer and further improve my skills in modern frontend technologies while contributing to real-world web applications.

Thank you for your time and consideration.

Sincerely,

**Sai Nikhil**

Web Developer
